During the period under review, the global economy continued to recover, despite stagnation in some parts of Europe, on the back of strong U.S. economy. The recovery in the Chinese economy remained at a standstill, though the effects of economic stimulus measures were also visible. The Japanese economy continued to recover gradually.

Under such circumstances, Toray Group starting from fiscal 2023 has been promoting its Medium-Term Management Program “Project AP-G 2025,” aiming to achieve sound, sustainable growth through the implementation of five basic strategies of “Sustainable Growth,” “Ultimate Value Creation,” “Product and Operational Excellence,” “Enhancement of People-Centric Management,” and “Risk Management and Governance.”

As a result, consolidated revenue for the fiscal year ended March 31, 2025, compared with the previous fiscal year, increased 4.0% to ¥2,563.3 billion, and core operating income (Note) rose 39.1% to ¥142.8 billion. Operating income increased 121.1% to ¥127.5 billion and profit attributable to owners of parent rose 255.8% to ¥77.9 billion.

Financial performance by segment is as described below.

	Year ended March 31, 2025	Year-on-year change
	Billions of yen	%
Revenue	1,011.1	3.7
Core operating income	64.2	17.3

The apparel applications were strong overall, despite the stagnation in the European market, and the continued impact of the intensified competition with overseas products.

The industrial applications fell short of a full recovery especially in the automobile applications, due to the impact of the safety test scandals of Japanese automobile manufacturers and the stagnant European market. The applications were also affected by the intensified competition in the Chinese EV market.

As a result, revenue of the overall Fibers & Textiles segment, compared with the previous fiscal year, increased 3.7% to ¥1,011.1 billion, and core operating income rose 17.3% to ¥64.2 billion.

Performance Chemicals

	Year ended March 31, 2025	Year-on-year change
	Billions of yen	%
Revenue	944.9	6.6
Core operating income	60.0	63.6

In the resins and chemicals businesses, while the resins business was affected by the production decline in the Japanese automobile industry, demand recovered in the non-automobile applications for China and ASEAN.

The films business saw increase in electronic parts-related demand due to rebound from inventory adjustment in the supply chain.

In the electronic & information materials business, there was recovery in demand for OLED-related materials and circuit materials.

As a result, revenue of the overall Performance Chemicals segment, compared with the previous fiscal year, increased 6.6% to ¥944.9 billion, and core operating income rose 63.6% to ¥60.0 billion.

Carbon Fiber Composite Materials

	Year ended March 31, 2025	Year-on-year change
	Billions of yen	%
Revenue	300.0	3.3
Core operating income	22.5	70.7

The aerospace applications recovered steadily. Among the industrial applications, while wind turbine blade applications continued to recover gradually, other applications entered an adjustment phase.

As a result, revenue of the overall Carbon Fiber Composite Materials segment, compared with the previous fiscal year, increased 3.3% to ¥300.0 billion, and core operating income rose 70.7% to ¥22.5 billion.

Environment & Engineering

	Year ended March 31, 2025	Year-on-year change
	Billions of yen	%
Revenue	236.5	(3.1)
Core operating income	25.9	11.6

The water treatment business posted an increase in both revenue and core operating income, on the back of strong demand, as well as shipments for a large-scale project in the Middle East, despite the impact of the stagnant market condition in China. The engineering business remained steady overall, though revenue of a Japanese engineering subsidiary decreased due to shift in project timing.

As a result, revenue of the overall Environment & Engineering segment, compared with the previous fiscal year, decreased 3.1% to ¥236.5 billion, while core operating income rose 11.6% to ¥25.9 billion.

Life Science

	Year ended March 31, 2025	Year-on-year change
	Billions of yen	%
Revenue	53.2	1.8
Core operating income (loss)	(0.8)	-

The pharmaceutical business was affected by the impact of the penetration of the generic versions, the NHI drug price revision, and the stagnant overseas sales volume.

In the medical devices business, shipment of dialyzers for hemodiafiltration was steady in Japan and overseas, but the business was affected by the soaring prices of raw materials.

As a result, revenue of the overall Life Science segment, compared with the previous fiscal year, increased 1.8% to ¥53.2 billion, while core operating loss narrowed by ¥0.6 billion to ¥0.8 billion.

Note:

Core operating income is calculated by excluding income and expenses due to non-recurring factors from operating income.

Analysis of Financial Position and Cash Flows

As of March 31, 2025, Toray Group's total assets stood at ¥3,292.6 billion, a decrease of ¥173.9 billion, compared with the end of the previous fiscal year, due primarily to declines in trade and other receivables as well as other financial assets.

Total liabilities came to ¥1,472.0 billion, a decrease of ¥148.1 billion, compared with the end of the previous fiscal year, owing mainly to decreases in bonds and borrowings.

Total equity stood at ¥1,820.6 billion, a decrease of ¥25.8 billion, compared with the end of the previous fiscal year, reflecting an increase in retained earnings and a decrease in other components of equity. Equity attributable to owners of parent stood at ¥1,709.0 billion. Equity ratio as of March 31, 2025 came to 51.9%, a 1.8 percentage-point increase compared with the level at the end of the previous fiscal year. (2) Forecast for the Fiscal Year Ending March 31, 2026

The global economy, which was in a gradual recovery phase, is facing a growing risk of entering a downturn phase triggered by the imposition of reciprocal tariffs by the U.S. under the Trump administration. There are also concerns of an economic slowdown in the Japanese economy, caused by a decline in exports and intensifying competition with China. Furthermore, instabilities in the stock and foreign exchange markets triggered by the imposition of the tariffs also pose concerns. The direction of the fiscal and trade policies of the U.S. under the Trump administration, as well as its negotiations with various countries, will likely affect the prevailing economic trends, which in the medium- to long- term may significantly alter supply chains and trade structure.

Under such circumstances, Toray Group will promote the basic strategies under the Medium-Term Management Program "Project AP-G 2025," carrying out its business operations in preparation for uncertainties.

For the fiscal year ending March 31, 2026, Toray expects revenue of ¥2,670.0 billion, core operating income of ¥150.0 billion, and profit attributable to owners of parent of ¥82.0 billion, taking into consideration business expansion in growth fields, and progress in profit improvement, while factoring in the risk of stagnation of the global economy triggered by U.S. trade policies. The calculation of consolidated earnings forecasts from April 2025 onwards, is based on an assumed foreign currency exchange rate of ¥145.0 to the U.S. dollar.

2. Basic Rationale for Selecting the Accounting Standards

Toray Group has been applying International Financial Reporting Standards ("IFRS") since the fiscal year ended March 31, 2021 for the purpose of increasing international comparability of financial information, enhancing convenience for our stakeholders and improving its business management by unifying accounting treatments applied across the group in accordance with the expansion and sophistication of our global business.
