Innovation by Chemistry

Materials can Change Our Lives

Toray Group firmly believes that “materials, as the foundation of all products, have the power to bring about fundamental transformations in society.” Based on this belief, our goal is to become a global top company in advanced materials as an integrated chemical industry group. Since our establishment, we have positioned “contributing to society” as the focus of our existence. Carrying this focus into our corporate philosophy of “contributing to society through the creation of new value with innovative ideas, technologies, and products,” we are ramping up efforts to solve a host of issues worldwide together with global partners by providing innovative technologies and advanced materials. With this in mind, we are working to become a corporate group that provides high value to all stakeholders.
